

## **SPRING 2009 SOCIAL SCHEDULE**

This spring we will be offering opportunities for industry sponsors and patrons to meet with our students in an informal setting. These socials offer an opportunity for you to highlight your company with an informational session and visit with students one-on-one or in small groups. This year we have approximately 10 graduates and 10 students who are looking for internships or summer employment in the field of concrete and construction.

We have reserved a mediated classroom each week of the semester (except spring break March 16-20) during the following days:

*Mondays 11-2*

*Tuesdays 11-1*

*Fridays 1-5*

In order to reserve a time, just contact the CIM faculty internship coordinator. If you need an interview room or workspace during your visit, do not hesitate to ask.
