The California Asphalt Pavement Association presents the 1st annual:

CALIFORNIA ASPHALT PAVEMENT FORUM

Get the very latest information on trends, technologies and techniques that are essential to success in the asphalt pavement industry

Keynote speaker:
Randy Iwasaki
Director,
Caltrans
(Confirmed)

Featured speaker:
Shakir Shatnawi
Caltrans State
Pavement
Engineer
(Confirmed)

You don't have time to waste. That's why we've packed as much useful information as possible into one action-filled day. Hear from top policy-makers, respected experts and others so you can keep current with the rapidly changing world of asphalt technology, specifications, economic trends and more.

What will be covered? Best practices in hot-mix asphalt design; specifications; testing; future trends; pilot projects & the status of evaluations. You'll also hear about future funding projections, the many changes to state asphalt specifications, Warm Mix Asphalt projects, the use of rubber and recycled asphalt.

Who should attend? Contractors, suppliers, refiners, estimators, engineers, public works representatives and anyone with an interest in asphalt or road construction. **Contact CalAPA for sponsorship opportunities.**
