

APCG 110 Kaleidoscope		Scale			
		Unacceptable	Marginal	Acceptable	Superior
Elements	Design	Lack of effort to produce a visually stimulating composition	An attempt to generate a visually stimulating composition	Design was executed appropriately, enhancing the composition	A superior exhibition of design
	Color	Color is applied thoughtlessly, flat, and/or is distracting from the image.	Color is explored but may seem minimal, blotchy or distracting.	Color enhances dimensionality and readability of the scene with little to no issues.	Color application is clear and intuitive, successfully enhancing illusion as well as mood.
	Detail	Brush detail is muddled and/or blurry. Objects and textures are indistinguishable.	Brush detail is satisfactory with considerable errors or blurriness.	Image is cleanly detailed with little to no blurry areas.	An ode to detail, every component is rendered clearly and accurately.
	Layers Composite	Layers are poorly accounted for or disregarded.	Layers are utilized but seams may be blotchy, transparent or unaccounted to.	A successfully integrated image with little to no seams visible.	A superior composite with no visible seams, George Lucas would be proud.
