 Special Sections, Style Guide home

**References**

This special section consists of two subsections: sample formats and [general style](#). The first presents examples of most of the reference types that arise in Computer Society publications. The second delineates the policies and style principles underlying the formats. For Transactions, see "Transactions Department References" (compiled January 2000).

**Sample formats****Article in a collection**

A.J. Albrecht, "Measuring Application-Development Productivity," *Programmer Productivity Issues for the Eighties*, 2nd ed., C. Jones, ed., IEEE CS Press, 1981, pp. 34-43.

**Article in a conference proceedings**

In general, delete prepositions in conference titles where the meaning is clear without them (see the *Abbreviations* section). Use the ordinal symbol (2nd, 14th, 23rd) for annual conferences. If available, include the conference initialism in parentheses—for example, (ICDE 98)—following the abbreviated name of the conference.

M. Weiser, "Program Slicing," *Proc. 14th Int'l Conf. Data Eng.* (ICDE 98), IEEE CS Press, 1998, pp. 439-449.

**Article in a journal or magazine**

Use lowercase for vol. and no. Page numbers through 9999 do not require a comma.

I.E. Sutherland, R.F. Sproull, and R.A. Schumaker, "A Characterization of 10 Hidden-Surface Algorithms," *ACM Computing Surveys*, Mar. 1974, pp. 1-55.

**Book**

**Book series**

Y. Yao et al., "Web Intelligence (WI): Research Challenges and Trends in the New Information Age," *Web Intelligence: Research and Development*, LNAI 2198, N. Zhong et al., eds., Springer-Verlag, 2001, pp. 1-17.

R. Focardi and R. Gorrieri, eds., *Foundations of Security Analysis and Design*, LNCS 2171, Springer-Verlag, 2001.

Note: According to *CMS* 17.91, if the book can be located without it, the series title can be omitted to save space.

**CD-ROM**

Place the term "CD-ROM" following the publication's title and preceding the publisher's name. For example, the format for a book that is available on CD-ROM is

W.M. Newman and R.F. Sproull, *Principles of Interactive Computer Graphics*, CD-ROM, McGraw-Hill, 1979.

**Dissertation or thesis**

B. Fagin, "A Parallel Execution Model for Prolog," doctoral dissertation, Dept. Computer Sciences, Univ. of California, Berkeley, 1987.

**Web site**

R. Bartle, "Early MUD History," Nov. 1990; <http://www.ludd.luth.se/aber/mud-history.html>.

**URL formatting and punctuation**

Verify URLs by copying and pasting them into your browser. Some addresses don't start with <http://>—other protocols are also legitimate, for example, <ftp://>—and some addresses don't need or even won't work with [www](http://). Some publications omit the <http://> if the URL starts with [www](http://).

Be sure to include all punctuation exactly as supplied (hyphens and tildes, in particular, are very common in Web addresses).

If a URL must run across more than one line, follow these guidelines:

- Break only after a forward slash or a "dot" (period).
- Do not split the double slash..

2001.

*Note:* Per IETF guidelines, references to working drafts should not include URLs because they expire after six months; use “work in progress” instead.

Include the department name for technical memos, technical reports, and other material that may not be indexed in a company-wide or university-wide library or by an abstracting service.

#### Technical or user manual

*The Unix System V Interface Definition*, vol. 1, AT&T Bell Laboratories, Murray Hill, N.J., 1991.

### General style

#### Author names

Use each author’s initials and last name. Leave no space between initials, but do leave a space between the period following the last initial and the first letter of the last name: *E.F. Codd*.

If an entry has more than three authors, use the first author’s name and follow it with “et al.”: *T.G. Lewis et al.*

#### Dates

Include just the year of publication for books. For periodicals, include either the month and year or the volume number, issue number, and year. If a periodical appears more frequently than monthly, include the date with the month: *15 Mar. 2000*. If a periodical appears quarterly, use the season or issue number, depending on the periodical’s usage. For periodicals that appear irregularly, do not use the month: *vol. 16, no. 5, 1997*.

Spell out *May*, *June*, and *July*; abbreviate the other months: *Jan.*, *Feb.*, *Mar.*, *Apr.*, *Aug.*, *Sept.*, *Oct.*, *Nov.*, and *Dec.* Use a slash for bimonthly issues (*Aug./Sept. 2000*) and a hyphen or en dash for a quarterly (*July–Sept. 2000*). Capitalize the names of seasons: *Winter*, *Spring*, *Summer*, and *Fall*.

### Electronic references

References to electronic repositories are acceptable in IEEE Computer Society publications, but they are not the references of choice for formal archival use. If possible, replace such references with references to printed material. However, when this is not possible, cite the electronic address along with as much additional information as possible. If the address itself becomes invalid in the future, the other information might help researchers find the same document elsewhere on the Internet. At the very least, a reference to an electronic source must include the Internet URL.

When citing an electronic reference simply to give the reader a place to go for more information, instead of including it in a formal reference list, noting it within parentheses in the running text is acceptable. Because such references break the flow of the text, use them sparingly and do not set them off in italic, boldface, or typewriter font. If an article includes many electronic references, consider placing them in a sidebar or a broken-out list.

When referring to various portions of a WWW page in text, use an initial cap for the designated item. Do not set it off with quotes, parentheses, or italics. Thus, a sample reference could be, *The proper way to search the page is to click on the Go button*, or *The text can be found in the Publications section of the company’s Web site*.

When referring to hypertext links found on a Web page (the highlighted underlined words), put the entire text of the link in quotes. For example, *Click on the “go here” link to reach the table*.

When referring to URLs in a string of text, don’t apply extra formatting.

### Publications

Italicize names of books (including collections), magazines, journals, newsletters, technical reports, and manuals. Use quotation marks to enclose names of articles, papers, theses,

dissertations, technical notes, and technical memos.

Use an en dash to indicate multiple issue numbers, for example, *vol. 5, nos. 1–4*. Use a slash to denote the issue for bimonthly publications, for example, *Aug./Sept.* For quarterly publications, use an en dash to denote the issue, for example, *Jan.–Mar.* If the name of a column is cited in the reference, use initial caps without quotation marks, for example, *Binary Critic*.

After the name of a book, thesis, proceedings, or other book-like material, list the publisher, year of publication, and inclusive page numbers if applicable. Delete terms such as *Co., & Co., Ltd., S.A., Publisher, and Publishing Co.*; retain *Press*. Where the publisher is a university, add its location if needed for clarity, for example, *Miami University, Ohio*.

Do not include the editor's name for a conference proceedings unless it is an edited volume published as a book.

References for proceedings should tell where an interested reader can find the source, not where the conference took place. If a proceedings did not use a traditional publisher, provide the sponsoring organization and its location.

### Titles

Capitalize the first and last words, and all nouns, pronouns, adjectives, verbs, adverbs, and subordinating conjunctions. Lowercase articles, coordinating conjunctions, and prepositions, regardless of length. Example: *Toward Better Real-Time Programming through Dataflow*.

To make a source easy for researchers to find, use the title as it originally appears. Do not add or remove hyphens, change words to preferred spellings, or lowercase internal capitals.

For foreign-language references, provide the original title first, followed by its English translation (if available) in brackets: *Zur experimentalen Aesthetic* [Toward an Experimental Aesthetic].

For a complete treatment of titles, see *CMS 8.164-8.208*.

### Abbreviations in references
